**Subject:** Draft GAO report

Hi Claire/Roberto:

FYI, attached is GAO's draft report on EPA oversight of Class II UIC enforcement/compliance programs. I believe you all sat in on our meeting with GAO. In terms of inspection and enforcement data, GAO decided to exclude CA from their more detailed enforcement analysis because of the ongoing compliance issues they have. OW has drafted a response; not sure if OECA is responding separately?

Anyway, let me know if you have any questions about this.

Thanks,  
David
